## Aden Bowman student awarded Canada's largest undergraduate scholarship
*Schulich Leader Scholarships support Canada's top talent in Science, Engineering and Math (STEM)*

For immediate release: June 25, 2025 – 4:00 p.m.

Abhinav Menon, a Grade 12 student at Aden Bowman Collegiate, has been selected to receive a $100,000 **Schulich Leader Scholarship** to study sciences majoring in chemistry at the University of British Columbia. Menon was selected for his outstanding academic and extra-curricular achievements.

Program founder Seymour Schulich says: "Schulich Leader Scholarships enable Canada's top universities to attract and retain our exceptional STEM talent here at home, empowering them to become the innovators and entrepreneurs our country needs. When these scholars go on to drive prosperity and strengthen our economy, Canada must ensure the right economic conditions exist so they can build their promising futures here. Supporting their entrepreneurial ambition is essential for turning Canadian ingenuity into lasting national success."

A total of 100 scholarships are being awarded: 50 engineering scholarships valued at $120,000 each, and 50 science, technology or math scholarships valued at $100,000 each.

Abhinav Menon says: "I received the offer while I was at school and the first people I shared with were the teachers and counsellors who supported me. This scholarship has given me financial security and enables me to focus on my studies without financial stress. As well, the Schulich community has leaders who I can be inspired from and collaborate with."

**About Schulich Leader Scholarships Canada**

*Recognizing the increasing importance and impact that STEM disciplines will have on the prosperity of future generations, businessman and philanthropist Seymour Schulich established this $100+ million scholarship fund in 2012 to encourage Canada's best and brightest students to become Schulich Leader Scholars: the next generation of entrepreneurial-minded, technology innovators.*

*Through the Schulich Foundation, these prestigious entrance scholarships are awarded to 100 high school graduates enrolling in a science, technology, engineering or mathematics (STEM) undergraduate program at 20 partner universities in Canada. Every high school in Canada can submit one Schulich Leader Nominee per academic year based on academic excellence in STEM, entrepreneurial leadership and financial need.*
