

MARION M. GRAHAM COLLEGIATE

OUR SCHOOL COMMUNITY

Marion M. Graham Collegiate is located in the north end of Saskatoon and currently serves nearly 800 students from a variety of areas of the city in both our English and French Immersion programs. Our reputation for excellence in academics, the arts, athletics and community service has resulted from outstanding work in all of these areas by our students. As a result our school continues to attract committed and talented students. The majority of our students pursue post-secondary studies following graduation and many have received significant scholarships and awards from local, national and international institutions.

We offer a broad range of academic courses and a full complement of extra-curricular programs. The typical Marion Graham student is involved in a full spectrum of curricular and extra-curricular activities.

OUR FRENCH IMMERSION PROGRAM

Our French Immersion program was one of the first to be offered to high school students in Saskatoon and boasts graduates that are now studying and working around the world. Current Grade 9 to 12 students benefit from a strong learning environment facilitated by skilled bilingual teachers who use effective educational practices for teaching both language skills and curricular content. French Immersion students find themselves in a supportive and dynamic educational environment.
