# At school, I will learn about numbers.

1

2

3

4

I  
WILL  
LEARN  
ABOUT  
LETTERS.

A

B

C

D

I will learn how to be a

FRIEND

I will learn how to be

and healthy.

## TEN WAYS TO PREPARE YOUR CHILD FOR KINDERGARTEN

- Play board games to practice taking turns
- Set up play dates or join a play group
- Encourage your child to dress themselves daily
- Expect your child to clean up after play time
- Play games to help your child learn their shapes, colours and numbers
- Have your child practice following three-step directions
- Visit your public library for new material to read with your child and for the free story time and song programs
- Let your child make their own choices and create unique pieces of art
- Join community activities such as soccer, tumble gym, swimming, etc.
- Bring your child to the sneak peek at your local school in the early spring to see the classroom, explore the routine and meet their teacher

## INSPIRE YOUR CHILD'S INTEREST IN READING, WRITING AND MATH:

- Read to your child at least 20 minutes a day. Point to the words, talk about the pictures, discuss the story
- Introduce new words in conversation with your child
- Trace and say letters with your child
- Talk about letters and the sounds they make
- Sort household items according to colour, size and shape
- Practice counting and forming groups of numbers up to 10
- Play games to help your child learn their shapes, colours and numbers
- Count everything, everywhere. Have your child count their toys, cans in your cupboards, pairs of socks and anything else that they seem interested in counting
- Read books that encourage counting and mathematical concepts
- Be patient when your child is trying to figure out a new word
- Write it out. Ask your child to help write the grocery list, a note to Grandma or tell you about their artwork
