

PSA

Transportation running today; regular school day planned for tomorrow

For immediate release: December 17, 2025 – 3:30 p.m.

Bus and wheelchair transportation are running as scheduled this afternoon; however, delays can be expected. Bus transportation service providers will share updates on any delays via their webpages:

- [First Student](#)
- [Hertz Northern](#)

At this time, plans remain in place for a regular school day tomorrow. In city settings such as Saskatoon, school closures are uncommon and school buses maintain operations in most Saskatchewan weather conditions.

SPS will continue to monitor conditions and provide updates if there are any changes. In the case of any changes to school operations, families are notified directly using their contact information on file at the school(s).
